

The best way to manage your winter heating costs

Budget Bill

Visit www.vectren.com to sign-up!

ENROLL NOW

in Budget Bill for the 2008-2009 winter heating season, and you could win a Home Energy Efficiency Makeover valued up to \$5,000!

VCN/VCS-INS 8/08

Win a \$5,000 Home Energy Efficiency Makeover!

With the upcoming winter season and projected high gas costs, Budget Bill is the best way to manage your payments for winter heating costs by spreading your annual estimated bill evenly over 12 months — so you can budget accordingly! So **ENROLL on or before Sept. 30, 2008**, in Budget Bill! No reason to contact us if you are already enrolled in Budget Bill; you'll be automatically registered to win simply by remaining a Budget Bill customer. A random drawing will be conducted early October from all active Budget Bill customers. One winner will be selected! See the official contest rules at Vectren.com for more detailed information.

Responsibility for gas piping

The customer is responsible for the maintenance of all gas piping from the gas meter to all gas appliances. Buried gas piping which is not maintained, is subject to potential hazards of corrosion and leakage. For your safety, all buried gas piping should be periodically inspected for leaks. If the buried piping is metallic, it should also be periodically inspected for corrosion. If an unsafe condition is found, the gas piping will need to be promptly repaired. When digging near buried gas piping, the piping must be located in advance and digging should be done by hand. Plumbing and heating contractors can assist in locating, inspecting and repairing customers' buried pipelines.

Access to meters

Access to your meter is important for the accuracy of your bill and the safety of our crews. Tips to follow:

- Please trim bushes, trees and grass that block the path to your meter or cover the meter.
- Please ensure no objects, such as cars, trailers, garbage cans, construction equipment or supplies, etc., cover or block access to the meter.
- Please notify us if you have an aggressive animal in your yard, so we can inform our meter readers and other utility personnel.
- Please arrange access if your meter is located behind a locked gate or in a secured area.
