Terms & Definitions

Distribution and Service Charges - Charges billed each month for the delivery of natural gas and other charges approved by the PUCO to ensure safe, reliable service.

Customer/Monthly Charge - Charge billed each month to recover a portion of the ongoing costs of providing service to the customer. This charge does not vary with gas consumption.

CCF (100 Cubic Feet) - Gas consumption is measured by your meter in hundreds of cubic feet.

Energy Conversion Factor (ECF) - The ECF adjusts meter usage for the energy content of the gas used. Energy content can vary monthly. The ECF is the ratio of the current energy content to the energy content at the time CenterPoint Energy's base rates were established.

Standard Choice Offer - Under CenterPoint Energy's Standard Choice Offer (SCO) service, CenterPoint Energy customers are receiving natural gas provided by third-party suppliers. The SCO suppliers won the right in a competitive auction to provide gas supply to customers at a monthly SCO price, which is calculated by adding a fixed retail price adjustment determined in a periodic auction to the New York Mercantile Exchange (NYMEX) month-end settlement price for natural gas. Because the SCO price reflects the NYMEX-based market price, it can vary with changes in supply and demand. The SCO price is charged to customers who have not selected an alternate gas supplier through the natural gas Choice program. The name of the gas supplier providing SCO service appears on the bill.

Miscellaneous Charges - Examples of miscellaneous charges may include but are not limited to reconnect fees; labor charges and returned payment charges.

Disclaimer - Programs and services are operated under the brand CenterPoint Energy by Vectren Energy Delivery of Ohio, Inc. d/b/a CenterPoint Energy Ohio.

Gas Cost Charge (DSS) - Under CenterPoint Energy's Default Sales Service (DSS), CenterPoint Energy Ohio purchases natural gas through third-party suppliers at a fixed retail price adjustment determined in a competitive auction plus the New York Mercantile Exchange NYMEX) month-end settlement price for natural gas; CenterPoint Energy Ohio's costs are then passed on to DSS customers. Because the DSS charge reflects the NYMEX-based market price, it can vary monthly with changes in supply and demand. The DSS price is charged to customers who are not eligible to select an alternate gas supplier through the natural gas Choice program.

Gas Supplier Charges (also referred to as gas marketer)

Charges billed each month for the consumption of natural gas supplied by a retail gas supplier who is certified by the Public Utilities Commission of Ohio (PUCO) to sell natural gas in a competitive retail market.

Pressure Factor - Factor used to calculate consumption on meters with higher than the standard delivery pressure. A pressure factor greater than 1 indicates a delivery pressure that is greater than CenterPoint Energy's standard delivery pressure.

PIPP Plus - The Percentage of Income Payment Plan Plus (PIPP Plus) is available if your total income is at or below 150% of the Federal poverty level. This program does not reduce or waive energy costs; it only establishes a payment plan to allow you to maintain your utility service.
