GAS TRANSPORTATION PROVISIONS
The following Gas Transportation Provisions are applicable to Customers entering into Transportation Service Contracts:

1) Transportation Customers shall be subject to the Nomination and Balancing Provisions in Appendix E, except as provided in paragraph (2) of this section.

2) Transportation Customers may become members of a Pool pursuant to the provisions of Rate 180, Pooling Service. If Customer designates a Pool Operator to be responsible for managing its gas supply, the nomination and balancing provisions pursuant to Appendix E shall not apply to Customer; rather, they shall apply to the Pool Operator. For purposes of calculating daily and monthly imbalances, the daily and monthly usages of all Customers within the Operator’s Pool will be combined into a single Pool usage total, which will be matched against the Pool Operator’s daily or monthly deliveries to its Pool. All nomination and balancing charges, including Cashout charges, penalties and like charges shall be billed to the Pool Operator. Customers shall remain individually responsible for interrupting or curtailing deliveries or usage or matching deliveries with usage when ordered to do so by the Company pursuant to this tariff for Gas Service. In the event of default of the Pool Operator, Customer shall remain liable for its portion of applicable charges, as determined by the Company after review of all available facts including documented deliveries and consumption. A Transportation Customer that has returned to individual Transportation Service from Pooling Service may not return to Pooling Service for a period of two months unless expressly authorized by Company.

3) Transportation Customer, at its expense, shall provide and maintain on the Premises at the meter location electric and telephone service as required by Company for the operation of Company-Owned electronic gas measurement devices and related communications equipment. If Customer’s telephone line is frequently not available when Company seeks to obtain measurement data, Company may require Customer to provide a dedicated telephone line in order to continue Transportation Service under this Rate Schedule.

4) To compensate for unaccounted for gas, the quantity of gas available to Transportation Customer on a daily basis shall be equal to the quantity of gas delivered into the Company’s distribution system at the point of receipt for the account of the Customer, reduced by a Unaccounted For Gas Percentage as set forth in Appendix F.

5) Transportation Customers must have all required regulatory approvals related to transportation of Customer-Delivered Gas.

TERMS AND RENDERED CONDITIONS
Gas Service rendered under this Rate Schedule shall be subject to Company’s General Terms and Conditions and the Commission’s Regulations.
