- 1.2 Company shall, at all times, deliver volumes of natural gas delivered to Company's gas system on Customer's behalf, less the Unaccounted For Gas Percentage in Sheet No. 54, up to the maximum daily volume defined under Section 1.3 of these Transportation Terms and Conditions and the Service Agreement.
- 1.3 The maximum daily volume of gas that may be delivered on Customer's behalf and transported on Company's gas system shall be Customer's Maximum Daily Delivery Obligation ("MDDO"). The MDDO agreed to and specified in the Service Agreement will be set such that an adequate volume of gas may be delivered to and transported on Company's gas system to meet Customer's peak day gas requirements. Company will serve demand above Customer's MDDO only on a best efforts basis.

- 1.5 If necessary to ensure that an adequate volume of gas may be delivered to meet Customer's peak day gas requirements, Company may increase Customer's MDDO to match any actual gas usage that exceeds Customer's then-existing MDDO on any day. Company shall not be required to deliver any volumes in excess of the current or agreed to increased MDDO.
- 1.6 If Customer demonstrates a significant and substantial reduction in peak day gas usage due to reasons other than seasonal or weather-related gas requirements, Company will, at Customer's request, reduce Customer's MDDO to a reasonable level agreed to by both parties. Customer's MDDO reduction shall take effect in the first billing month after the billing month in which the parties agree to the MDDO reduction.

Unless otherwise agreed to in a separate contract, Company shall not be obligated to provide Customer any other service.
- 1.8 If Customer's gas requirement exceeds the capacity of Company's gas system, Company will only deliver gas at the incremental cost of providing said service.

Customer shall retain title to this capacity and use it throughout the term of Customer's Service Agreement to transport natural gas to Company's gas system. Company will have the "right-of-first refusal" to bid on such capacity upon its re-release. All capacity rights assigned hereunder shall revert to Company upon the expiration of the Service Agreement and neither Customer nor its supplier shall be obligated to take the assignment of Company's firm capacity thereafter. Section 16 -RESERVED FOR FUTURE USE:

TRANSPORTATION TERMS AND CONDITIONS **(LARGE GENERAL AND LARGE VOLUME)**

Section 17 - OPERATIONAL FLOW ORDERS:

- 17.1 Customer shall be subject to the Nomination and Balancing Provisions (Large General, Large Volume, and Pool Operator) contained in Sheet No. 51.

Section 18 - OTHER SYSTEM COSTS:

- 18.1 Customer agrees that if any of its actions, over which it exercises sole control as a Transportation Customer, cause Company to incur costs that Company would not have incurred had Customer complied with its obligations defined in this Agreement, Customer shall: 1) compensate Company for all such higher costs which Company is required to pay, and 2) take all necessary measures to allow Company to avoid incurring similar costs in the future. Further, if Customer is currently a SCO Customer and Company incurs any pipeline exit fees or similar charges as a result of Customer's election of Transportation Service hereunder, Customer shall compensate Company for these costs.

Section 19 – NOTICES:

- 19.1 Customer shall immediately notify Company of any known or anticipated variation in the amount of gas to be delivered hereunder, as well as any known or anticipated supplier shortfalls or constraints. All notices and correspondences to Company shall be addressed as specified in the Service Agreement.

NOMINATION AND BALANCING PROVISIONS **(LARGE GENERAL, LARGE VOLUME, AND POOL** **OPERATOR)**

APPLICABILITY

The following provisions shall apply to each Transporter and to each non-Pooling Transportation Customer being provided Gas Service under Rate 345 or Rate 360. **For purposes of these Nomination and Balancing Provisions only, the term "Transporter" shall mean "Pool Operator" and "non-Pooling Transportation Customer."**

NOMINATION PROVISIONS

Transporter shall notify Company of the exact daily quantity of gas nominated to be delivered to Company at pipeline delivery points agreeable to Company (Daily Pipeline Nomination). Company may require Transporter to allocate its Daily Pipeline Nomination to specified city-gate pipeline delivery points based on minimum and maximum allocation percentages (City-Gate Allocations), which Company may revise from time to time, based on operational considerations. Changes to City-Gate Allocations may be made effective annually after four months prior notice, unless extraordinary considerations require a shorter interval or notice period. Company may, based on operational considerations, require modification of Transporter's Daily Pipeline Nominations or deliveries that do not comply with these city-gate allocation percentage requirements.

Transporter shall provide notice to Company prior to each change in Transporter's Daily Pipeline Nomination by submitting to Company the nomination, via Company's EBB, by no later than 1:00 p.m. Central Clock Time ("CCT") of the workday previous to the start date of the Daily Pipeline Nomination. The nomination shall include information as required in Company's EBB. Notwithstanding the above, Company shall accept nominations submitted after the deadline specified above in accordance with the pipeline's intra-day nomination schedules. Until Transporter submits the required nomination to Company Transporter's nominations of daily quantities shall be zero. Unless otherwise permitted by Company, the Nomination Period shall not exceed thirty-one days.

Transporter shall be responsible for verifying and, if necessary, correcting its Daily Pipeline Nomination so that it matches Transporter's confirmed pipeline deliveries and is compliant with the City-Gate Allocations percentage requirements.

Transporter shall pay a Nomination Error Charge of \$.25 per Dekatherm on the quantity difference between Transporter's final Daily Pipeline Nomination and the confirmed pipeline deliveries under Transporter's Daily Pipeline Nomination for each day such difference occurs ("Error Occurrences"). Transporter shall be allowed two Error Occurrences without charge each twelve months. Documented force majeure conditions and waivers of this charge shall not result in an Error Occurrence.

Transporter shall be assessed a City-Gate Allocation Non-Compliance Charge of \$.50 per Dekatherm on the quantity difference if the Transporter's Daily Pipeline Nomination is less than the minimum or greater than the maximum city gate allocation requirements, which are calculated as the minimum or maximum city gate allocation percentages multiplied by the Transporter's Daily Pipeline Nomination ("Non-Compliance Occurrences"). Transporter shall be allowed two Non-Compliance Occurrences without charge each twelve months. Documented force majeure conditions and waivers of this charge shall not result in a Non-Compliance Occurrence.

Filed pursuant to the Finding and Order dated March 31, 2016 in Case No. 15-1985-GA-ATA of The Public Utilities Commission of Ohio.

NOMINATION AND BALANCING PROVISIONS
(LARGE GENERAL, LARGE VOLUME, AND POOL
OPERATOR)

BALANCING PROVISIONS

Transporter shall be obligated to balance on a daily and monthly basis its total usage, adjusted to Dekatherms, with the total deliveries of Transporter-Delivered Gas as adjusted to reflect Company's Unaccounted for Gas Percentage. An Imbalance Quantity shall exist when the Transporters' total usage is greater than or less than Transporter's total deliveries on a daily or monthly basis.

The following definitions shall apply:

Daily Index Price: The Daily Midpoint Price per Dekatherm reported in Platts Gas Daily, in the table "Daily Price Survey" for delivery to: Appalachia: Columbia Gas, Appalachia.

Monthly Index Price: The average of the Daily Index Prices for each day during the month.

Daily Under-Delivery Charge: The Daily Under-Delivery Charge shall be the sum of the Daily Index Price and the maximum interruptible pipeline transportation rate, including fuel and all surcharges.

Daily Over-Delivery Charge: The Daily Over-Delivery Charge shall be the sum of the Daily Index Price and the firm pipeline transportation commodity rate, including fuel and all surcharges.

Monthly Under-Delivery Charge: The Monthly Under-Delivery Charge shall be the sum of the Monthly Index Price and the maximum interruptible pipeline transportation rate, including fuel and all surcharges.

Monthly Over-Delivery Charge: The Monthly Over-Delivery Charge shall be the sum of the Monthly Index Price and the firm pipeline transportation commodity rate, including fuel and all surcharges.

Nomination and Balancing Provisions Charges: Any Charge assessable to Transporter pursuant to these Nomination and Balancing Provisions.

NOMINATION AND BALANCING PROVISIONS **(LARGE GENERAL, LARGE VOLUME, AND POOL** **OPERATOR)**

DAILY BALANCING PROVISIONS

Transporter shall be obligated to balance its total daily usage adjusted to Dekatherms ("Total Daily Usage") with the aggregated total daily deliveries of Transporter-Delivered Gas by the interstate pipeline, as reduced to reflect Company's Unaccounted for Gas Percentage as specified in Sheet No. 54 ("Total Daily Deliveries"). A Daily Imbalance Quantity shall exist when the Total Daily Usage is greater than or less than the Transporter's Total Daily Deliveries.

Daily Under-Delivery Imbalance: If Transporter's Total Daily Deliveries are less than its Total Daily Usage, the gas shortfall shall be considered Daily Under-Delivery Imbalance Quantities. Daily Under-Delivery Imbalance Quantities up to and including 15% of Total Daily Usage shall be carried to month-end; Daily Under-Delivery Imbalance Quantities over 15% shall be Cashed out. Transporter shall pay for Daily Under-Delivery Gas Quantities greater than 15% of Total

Daily Usage pursuant to the following:

- (1) 1.05 times the Daily Under-Delivery Charge for each Dekatherm of Under-Delivery Imbalance Quantity that is greater than 15%, up to and including 25% of Total Daily Usage; plus
- (2) 1.2 times the Daily Under-Delivery Charge for each Dekatherm of Daily Under-Delivery Imbalance Quantity that is greater than 25% of Total Daily Usage; plus
- (3) Applicable taxes.

During a Cold Weather OFO, the aforementioned Daily Under-Delivery Imbalance provisions will be replaced by those specified in the section entitled Operational Flow Order Imbalance Provisions.

Daily Over-Delivery Imbalance: If Transporter's Total Daily Deliveries are greater than its Total Daily Usage, the excess gas shall be considered Daily Over-Delivery Imbalance Quantities. Daily Over-Delivery Imbalance Quantities up to and including 15% of Total Daily Usage shall be carried to month-end; Daily Over-Delivery Imbalance Quantities over 15% shall be Cashed Out. Transporter shall be paid for such Daily Over-Delivery Imbalance Quantities greater than 15% of Total Daily Usage pursuant to the following:

- 1) 0.9 times the Daily Over-Delivery Charge for each Dekatherm of Daily Over-Delivery Imbalance Quantity that is greater than 15%, up to and including 25% of Total Daily Usage; plus
- 2) 0.75 times the Daily Over-Delivery Charge for each Dekatherm of Daily Over-Delivery Imbalance Quantity that is greater than 25% of Total Daily Usage.

During a Warm Weather OFO, the aforementioned Daily Over-Delivery Imbalance provisions will be replaced by those specified in the section entitled Operational Flow Orders Imbalance Provisions.

Excess Daily Imbalance: If Transporter exceeds the minimum Daily Imbalance percentage of 15% on more than 36 days during a twelve-consecutive month period, the Daily Over/Under-Delivery Charge multipliers for that Transporter will be as follows for the next twelve-month period:

Daily Under-Delivery Charge multipliers will be 1.20 and 1.35 (vs. 1.05 and 1.20)
Daily Over-Delivery Charge multipliers will be 0.75 and 0.60 (vs. 0.90 and 0.75)

NOMINATION AND BALANCING PROVISIONS **(LARGE GENERAL, LARGE VOLUME, AND POOL** **OPERATOR)**

MONTHLY BALANCING PROVISIONS

Transporter shall be obligated to balance its total monthly usage adjusted to Dekatherms ("Total Monthly Usage") with the actual monthly deliveries of Transporter-Delivered Gas by the pipeline, as adjusted to reflect (1) Company's Unaccounted for Gas Percentage as specified in Sheet No. 54, (2) the net effect of Daily Imbalance Quantities cashed out during the current month (collectively, "Total Monthly Deliveries"). A Monthly Imbalance Quantity shall exist when the Total Monthly Usage is greater than or less than Transporter's Total Monthly Deliveries.

Monthly Under-Delivery Imbalance: If the Total Monthly Deliveries for Transporter's account at the end of the month are less than its Total Monthly Usage, the gas shortfall shall be considered Monthly Under-Delivery Imbalance Quantities. Monthly Under-Delivery Imbalance Quantities greater than 0% shall be Cashed out. Transporter shall pay for Monthly Under-Delivery Imbalance Quantities greater than 0% of Total Monthly Usage pursuant to the following:

- (1) 1.0 times the Monthly Over-Delivery Charge for each Dekatherm of Monthly Under-Delivery Imbalance Quantity that is greater than 0%, up to and including 5% of Total Monthly Usage; plus
- (2) 1.05 times the Monthly Under-Delivery Charge for each Dekatherm of Monthly Under-Delivery Imbalance Quantity that is greater than 5%, up to and including 15% of Total Monthly Usage; plus
- (3) 1.2 times the Monthly Under-Delivery Charge for each Dekatherm of Monthly Under-Delivery Imbalance Quantity that is greater than 15% of Total Monthly Usage; plus
- (4) Applicable taxes.

Monthly Over-Delivery Imbalance: If the Total Monthly Deliveries for Transporter's account at the end of the month are greater than its Transporters' Total Monthly Usage, the gas excess shall be considered Monthly Over-Delivery Imbalance Quantities. Monthly Over-Delivery Imbalance Quantities greater than 0% shall be Cashed out. Transporter shall be paid for Monthly Over-Delivery Imbalance Quantities greater than 0% of Total Monthly Usage pursuant to the following:

- (1) 1.0 times the Monthly Over-Delivery Charge for each Dekatherm of Monthly Over-Delivery Imbalance Quantity that is greater than 0%, up to and including 5% of Total Monthly Usage; plus
- (2) 0.9 times the Monthly Over-Delivery Charge for each Dekatherm of Monthly Over-Delivery Imbalance Quantity that is greater than 5%, up to and including 15% of Total Monthly Usage; plus
- (3) 0.75 times the Monthly Over-Delivery Charge for each Dekatherm of Monthly Over-Delivery Imbalance Quantity that is greater than 15% of Total Monthly Usage

In the event of a Company issued OFO pursuant to Operational Flow Orders Section of Company's General Terms and Conditions, the following provisions will apply:

Cold Weather OFO Day: During a Cold Weather OFO, the Transporter shall be subject to the following Daily OFO Under-Delivery Imbalance provisions:

If Transporter's Daily Under-Delivery Imbalance Quantity is greater than 5% of actual Total Daily Usage, the shortfall quantities shall be Cashed-out. Transporter shall pay the following:

- (1) For each Dekatherm of Daily Under-Delivery Imbalance Quantities greater than five (5) percent of Total Daily Usage, the Daily Under-Delivery Charge; plus
- (2) The higher of (a) all other charges incurred by Company and attributable to Transporter's Daily Under-Delivery Imbalance Quantity, including pipeline penalty charges on the OFO shortfall quantities, or (b) an OFO Imbalance Charge of \$10.00 per Dekatherm on the portion of the Daily Under-Delivery Imbalance Quantity that is greater than five (5) percent of Total Daily Usage; plus
- (3) Applicable taxes.

Daily Balancing Provisions apply to over-deliveries during a Cold Weather OFO. If it is determined by Company that over-deliveries in excess of the daily usages are helpful, Company may waive the Daily Over-Delivery Imbalance Provisions for that day. Waivers related to helpful over-deliveries will be communicated in conjunction with the issuance of the OFO notice.

Warm Weather OFO Day: During a Warm Weather OFO, the Transporter shall be subject to the following Daily OFO Over-Delivery Imbalance provisions:

If Transporter's Daily Over-Delivery Imbalance Quantity is greater than 5% of its actual Total Daily Usage, the excess quantities shall be Cashed out. Transporter shall be paid for each Dekatherm of Daily Over-Delivery Imbalance Quantities greater than five (5) percent of Total Daily Usage, the Daily Over-Delivery Charge. Transporter shall pay the following:

- (1) The higher of (a) all charges incurred by Company and attributable to Transporter's Daily Over-Delivery Imbalance Quantity; including pipeline penalty charges on the OFO excess quantities, or (b) an OFO Imbalance Charge of \$10.00 per Dekatherm on the portion of the Daily Over-Delivery Imbalance Quantity that is greater than five (5) percent of Total Daily Usage; plus
- (2) Applicable taxes.

Daily Balancing Provisions apply to under-deliveries during a Warm Weather OFO. If it is determined by Company that under-deliveries in excess of the daily usages are helpful, Company may waive the Daily Under-Delivery Imbalance Provisions for that day. Waivers related to helpful under-deliveries will be communicated in conjunction with the issuance of the OFO notice.

NOMINATION AND BALANCING PROVISIONS **(LARGE GENERAL, LARGE VOLUME, AND POOL** **OPERATOR)**

IMBALANCE TRADING

Transporter may trade daily and monthly imbalance quantities, including those on OFO days, to reduce or eliminate its imbalances. Imbalance Trading is subject to the following provisions:

- (1) The schedule for the trading of imbalances shall be as follows:
 - a. Company shall issue an initial statement of daily and monthly imbalances (i.e. prior to imbalance trades) to Transporter within ten (10) business days following the end of the month.
 - b. Transporter shall complete and submit its daily and monthly imbalance trades to Company within three (3) business days following the issuance of the initial imbalance statement.
 - c. Company shall issue a final imbalance statement of daily and monthly imbalances to Transporter within three (3) business days following the close of imbalance trading.
- (2) The quantity eligible for trading is 100% of the calculated pre-trade daily or monthly imbalance quantities. Transporter may not trade to establish an imbalance in the opposite direction of the original imbalance.
- (3) Company will bill the selling party to an Imbalance Trade a \$10.00 Imbalance Trading Charge for each transaction. For purposes of this charge, a transaction is each transfer of gas imbalance for a specific gas day or month pursuant to an arrangement by, or between, Transporter(s) to purchase, sell, or trade gas imbalances.
- (4) Any dollar payments, receipts, or exchanges of other consideration agreed upon between the parties to an Imbalance Trading transaction are outside the scope of this tariff and must be completed between the parties themselves.

WAIVER OF CHARGES

In its reasonable discretion, on a case-by-case basis, Company may waive all or part of any Charge assessable to Transporter pursuant to these Nomination and Balancing Provisions, when such Charges result from situations which occur beyond the reasonable control of Transporter, including, without limitation, an unexpected production outage, equipment malfunction or upstream pipeline error. The waiver of such otherwise assessable Charge shall be exercised on a non-discriminatory basis. Requests for waivers must be submitted in writing to Company and be signed by an authorized representative of Transporter. VEDO will retain records of waiver requests received and their dispositions. Daily and Monthly Balancing Provisions may be waived or amended on a case-by-case basis for situations beyond the reasonable control of the Transporter. Such waivers or amendments shall be exercised on a non-discriminatory basis.

DISPOSITION OF CHARGES

The gas cost portion of all cash-outs relating to imbalances and all incremental gas costs and pipeline penalties will be recovered from or credited to Suppliers providing system balancing through Company-released storage. The following charges will also be credited to the Suppliers: Nomination Error Charges, City-Gate Allocation Non-Compliance Charges, and the non-gas portions of all imbalance cash-outs. Company will not retain amounts associated with Nomination and Balancing Provisions Charges, except as necessary to offset pipeline penalties

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

Company shall issue a written notification to Customer informing Customer of the applicable change. Customers who on their own initiative decide to terminate their relationship with a Choice Supplier will be permitted to do so without Company making any determination regarding whether Customer is contractually permitted to make such move. In that instance, Customer shall transfer to SCO Service unless it selects another Choice Supplier. Company shall not be liable to Choice Supplier or Customer for allowing Customer to transfer to DSS or SCO Service or another Choice Supplier.

If Company rejects a Customer from enrollment, Choice Supplier shall notify Customer within three business days from Company's notification of rejection that Customer will not be enrolled or enrollment will be delayed, along with the reason(s) therefore.

Company shall, prior to a Customer commencing service with a Choice Supplier, mail Customer a confirmation notice stating:

2. The date such service is expected to begin;
3. Customer has seven business days from the postmark date on the notice to contact Company telephonically, in writing or via the Internet to rescind the enrollment request or notify Company that the change of Choice Supplier was not requested by Customer; and
4. Company's toll-free telephone number, mailing address and website address.

Choice Supplier's failure to adhere to any Customer enrollment procedures or failure to provide verification of enrollment within the time period specified herein shall be treated in the same manner as other violations of the Choice Supplier Code of Conduct.

Eligible Customer List:

Company shall make available to PUCO-certified Retail Natural Gas Suppliers approved by the Company for participation in the Company's Choice Program an electronic list of Customers eligible for participation in the program, as defined in Section 4929.22 (B) of the Revised Code. POOL CUSTOMER BILLING OPTIONS

Choice Supplier may elect one of the following two billing options for its Pool Customers. Such election shall be applicable to all of Choice Supplier's Pools and Customers.

Option 1 – Company Consolidated Billing:

Pool Customer shall receive one Bill from Company that indicates the name of Choice Supplier from whom Customer is receiving its gas supply and which includes an amount for Choice Supplier's gas supply charges in accordance with the pricing arrangements agreed upon between Choice Supplier and Customer, including any taxes for which Choice Supplier must collect. Choice Supplier shall furnish Company with sufficient Bill contents as required in Rule 4901:1-29-12(b) of the OAC. Company's consolidated Bill may provide the budget amounts, past due balances, and payments applied on a consolidated basis only. A Choice Supplier who elects this billing option will be limited to a reasonable number of pricing arrangements to which a Customer may be assigned by Choice Supplier.

Pool Customer will be responsible for making payment to Company for the entire amount shown on the Bill, including both Company's and Choice Supplier's charges. Once a month, Company shall remit to Choice Supplier, by wire transfer or otherwise, payment for all gas supply billed to Choice Supplier's Customers by Company on Choice Supplier's behalf, including taxes attributable to Choice Supplier's portion of the Bill, less any applicable offsetting amount. Choice Supplier shall be responsible for dispersing to the appropriate taxing authorities any tax that is attributable to Choice Supplier's portion of the Bill.

In the event Customer remits to Company less than the full payment due, the payment received shall first be attributed to Company's past due charges, then to Company's current charges, and the residual amount, if any, shall be attributed to Choice Supplier's portion of the Bill, including the taxes thereon. Customer shall be subject to the Late Payment Charge set out in Sheet No. 30, Miscellaneous Charges, against the entire amount of past due charges on Customer's Bill. Company shall be responsible for collection responsibilities associated with any shortfall from Customer.

Option 2 – Dual Billing:

Pool Customer shall receive two bills as follows:

1. Company shall bill and collect for its portion of the Bill that includes charges for Transportation Service and all applicable Riders. Company's Bill shall include Choice Supplier's name and a statement that Choice Supplier is responsible for billing Choice Supplier's charges. In the event that Customer remits to Company less than the amount included on Company's Bill, Customer shall be subject to the same late payment charges and disconnect rules that would be applicable if Customer were receiving SCO Service.
2. Choice Supplier shall be responsible for billing and collecting its part of the bill including any arrearages due from Choice Supplier's own prior billings. To facilitate Choice

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

Supplier's portion of the billing each month, Company will provide Choice Supplier with an electronic notification of the monthly meter readings of all Customers within Choice Supplier's Pool that have been billed by Company. Such billing data will correspond to the meter reading data on which Company based its Bill for Transportation Service. Choice Supplier may terminate gas sales to any Pool Customer for non-payment and remove Customer from its Pool in accordance with the procedures for deleting Customers from a Choice Supplier's Pool.

CAPACITY AND OPERATING REQUIREMENTS

Comparable Firm Capacity Requirement:

Choice Supplier agrees to secure sufficient firm interstate pipeline capacity, of which a portion shall be Company released capacity, with primary delivery points to Company's city gates and firm supply to meet 100% of each month's Peak Design Day Demand of its Pool Customers, less a percentage during the winter months reflecting the Pool's entitlement to Company's alternate peaking supplies as described below (Comparable Firm Capacity Requirement). All obligations of Choice Supplier with respect to such capacity and supply shall be the sole responsibility of Choice Supplier.

On a daily basis, Company will provide Choice Supplier with the revised Peak Design Day Demand for Choice Supplier's Pool effective the following day. This volume will change over time as necessary to reflect Customers joining and/or leaving Choice Supplier's Pool and any changes in Company's peak design day demand parameters.

Company may periodically verify Choice Supplier's compliance with this Comparable Firm Capacity Requirement. Choice Supplier will provide to Company upon request copies of contracts for upstream pipeline capacity not released by Company and supply contracts showing the firm quantities reserved or purchased and the specific points of delivery. If Choice Supplier is securing firm city gate supplies, Choice Supplier shall provide a copy of such firm supply agreement, and additional documentation as required by Company to confirm compliance of the applicable interstate pipeline capacity.

If Company identifies a firm capacity deficiency, such deficiency shall be resolved to Company's satisfaction by one or a combination of the following, at Choice Supplier's discretion: 1) immediate acquisition by Choice Supplier of additional firm pipeline capacity, 2) assignment to Choice Supplier of Company's pipeline capacity, 3) delayed enrollment of new Pool Customers, 4) return/transfer of existing Pool Customers to SCO Service, or 5) transfer of Pool Customers to another Choice Supplier. If Company identifies a firm supply deficiency, such deficiency shall be resolved to Company's satisfaction by one or a combination of the following, at Choice Supplier's discretion: 1) immediate acquisition by Choice Supplier of additional firm supply, 2) delayed enrollment of new Pool Customers, 3) transfer of existing Pool Customers to SCO Service, or 4) transfer of Pool Customers to another Choice Supplier.

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

Mandatory Assignment of Pipeline Capacity:

Company will release its pipeline transportation and storage capacity to Choice Supplier based upon a percentage to be confirmed annually of the Peak Design Day Demand of Choice Supplier's Pool. Choice Supplier may elect to have a Choice Supplier's Designee take release of Choice Supplier's allocation of pipeline transportation and storage capacity. Choice Supplier's Designee must be a signatory party to a Choice Tri-Party Capacity Release Agreement as set forth below. Choice Supplier or Choice Supplier's Designee shall take release of specific interstate pipeline firm transportation and storage capacity for a term, agreed to by Company, subject to Company's right of capacity recall contained elsewhere in these Terms and Conditions.

Terms and conditions of the capacity release will be specified in pipeline capacity release forms, including length of term, price, and recall requirements, subject to FERC requirements for capacity release. Choice Supplier or Choice Supplier's Designee may not change any primary points of receipt or delivery associated with released pipeline transportation contracts during the term of the capacity release. In addition, for specific parcels of capacity identified by Company, Choice Supplier or Choice Supplier's Designee may not utilize any delivery point other than those primary and secondary points identified by Company unless the capacity is released at the pipeline's full tariff rate or unless an alternate capacity billing arrangement is agreed to by Choice Supplier and Company. The released capacity is subject to recall at any time if Choice Supplier or Choice Supplier's Designee does not perform in accordance with the Agreement or fails to comply with the Choice Supplier Code of Conduct and other provisions set forth in these Terms and Conditions.

Choice Supplier or Choice Supplier's Designee may re-release any capacity assigned to it hereunder except TCO storage capacity, provided that: 1) Choice Supplier or Choice Supplier's Designee will continue to be responsible for payment of all pipeline charges associated with the released capacity; 2) any re-release of such capacity remains subject to the restrictions identified in the Company's Tariff; and the capacity is not needed to satisfy the Choice Supplier's Pool's DDQ on such day(s). Choice Supplier or Choice Supplier's Designee may use other firm pipeline capacity to supply its DDQ and re-release portions of its assigned pipeline capacity, subject to the previously mentioned restrictions.

Choice Tri-Party Capacity Release Agreement:

A Choice Tri-Party Capacity Release Agreement must be executed by Choice Supplier, Choice Supplier's Designee and Company before the assignment of pipeline transportation and/or storage capacity and all other terms and conditions contained in such Choice Tri-Party Capacity Release Agreement are effective. Choice Supplier's Designee shall be subject to Company's approval. Company retains discretion to reject a proposed Choice Supplier Designee based on a creditworthiness evaluation or other issues that take into consideration the reliability of performance of all obligations, including financial obligations. Choice Supplier's Designee must comply with all capacity release requirements and re-release limitations, either per this Tariff for Gas Service or per Company operating procedures. Choice Supplier shall remain responsible for both its and its Choice Supplier's Designee's compliance with the requirements of Company's Choice program.

Monthly Reassignment of Capacity:

Transportation and storage capacity released to Suppliers will follow Customers to their new Suppliers upon migration to and from Choice Service with monthly reassignment of capacity to Suppliers based on their Peak Design Day Demands. Company reserves the right to adjust capacity release quantities intra-month in the event large migrations occur.

Operational System Balancing:

Company's TCO storage will be released to each Choice and SCO Supplier on a proportionate basis. The holders of Company-released TCO storage capacity will collectively provide system balancing through Predetermined Allocations (PDA) set with TCO.

Filed pursuant to the Finding and Order dated March 20, 2013 in Case No.13-376-GA-ATA of The Public Utilities Commission of Ohio.

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

PDAs will be established with TCO at the beginning of each month proportional to the percentage of TCO storage capacity released to Suppliers. Each day Choice Supplier will be allocated a portion of the daily system imbalance based on its PDA percentage. Choice Supplier will be charged by TCO for any overrun or penalties associated with exceeding its individual storage volume limits. If Company, as meter operator, incurs TCO penalties, such penalties will be assessed to each Choice Supplier that contributed to the penalty proportional to their contribution to the violation.

Choice Suppliers will agree to provide Company access to their daily TCO storage balances. Choice Suppliers will also agree to follow Company-established minimum and maximum limits for daily storage injections and withdrawals, and minimum storage inventory requirements to ensure sufficient storage inventory and capacity to balance Company's system each day. At no time shall Choice Supplier's Company-released TCO storage inventory volume be less than the minimum specified by Company.

Provider of Last Resort ("POLR") Service:

Choice Supplier shall temporarily provide supply from Company-released TCO storage capacity to cover system load requirements in the event of a Supplier default or OFO event.

Defaulting Suppliers will be required to reimburse affected parties for any incremental costs incurred to provide POLR Service. Any incremental costs not recovered from defaulting Suppliers will be included in the ETC Rider.

Company will act as POLR Coordinator, identifying the need for POLR service and notifying SCO and Choice Suppliers.

Company will take the following short-term action with regard to obtaining POLR supply:

- (1) Choice and SCO Suppliers collectively will provide supply to meet POLR needs, using their individual TCO storage inventories. The withdrawn storage inventory will be subsequently replaced.
- (2) If Company determines that the daily quantity of gas needed may affect the reliability of the system, an OFO will be issued, to ensure that Transportation Customers or Pool Operators are not under delivering versus their respective usages during the POLR period.
- (3) Next, as soon as possible, all transportation and storage capacity released to any defaulting Supplier will be recalled by Company who will use it to meet the immediate needs of the defaulting Supplier's customers. Company will claim the defaulting Supplier's storage inventory as needed to meet the defaulting Supplier's customer loads.

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

- (4) Company will fill any remaining shortfall through acquiring additional temporary capacity and supply or city-gate deliveries.
- (5) Company will coordinate the provision of POLR service for the remainder of the billing month in which a Supplier default occurs, and the subsequent month, or until an alternate solution is effectuated.

In the event of defaulting supplier removal, Company will take the following action with regard to an alternate solution:

- (1) If a Choice Supplier is removed, Company will offer non-defaulting Choice Suppliers the option of assuming the customers of the removed Choice Supplier. If there are no non- defaulting Choice Suppliers that will assume the removed Choice Supplier's customers, the customers will transfer to SCO service.
- (2) If an SCO Supplier is removed or Choice Suppliers do not assume the customers of a removed Choice Supplier:
 - (a) The existing SCO Suppliers loads will be increased to cover the defaulted load on a pro rata basis. Such incremental load will be limited to 50% of initial Tranches awarded.
 - (b) For the portion of increased load quantity greater than 50% of initial Load Tranches awarded to existing SCO Suppliers, that load will be assigned to a new SCO Supplier based on an accelerated auction process.

Company Demand Forecast:

Company shall forecast each Pool's Peak Design Day Demand and Expected Demand based upon Company's design day and forecasted weather, respectively; the number of Customers in the Pool; and the historic usage characteristics of the Pool Customers. The Peak Design Day Demand, Expected Demand, and corresponding DDQ shall be based on a single market area upon the implementation of the Program. However, through experience gained with the Program, Company may create separate forecasts and DDQs and require separate Pools for specific market areas.

Daily Scheduling of Directed Delivery Quantities:

By 8:00 a.m. Central Clock Time (CCT), Company will post on its EBB, Choice Supplier's DDQ by Pool for the gas day beginning 9:00 a.m. CCT the following day. Such DDQ shall be the sum of: 1) the Expected Demand of Choice Supplier's Pool for that gas day calculated using the Pool's demand equation and forecasted weather; and 2) any necessary adjustments for interstate pipeline and/or Company operating constraints, system knowledge and experience, and/or prior imbalances associated with the periodic volume reconciliations. The DDQ will be stated in city-gate Dekatherms. At the time of posting the DDQ, Company shall indicate the minimum, maximum or exact volume that shall be delivered by Choice Supplier on each interstate pipeline or to each Company city gate to achieve the DDQ, and shall post any interstate pipeline and/or Company operating constraints that are expected to be in effect the following day(s). Company shall maintain city-gate allocation tables that outline the range of minimum and maximum delivery percentages required by city-gates and/or service areas on Company's system. These percentages shall be recalculated and communicated to Choice Suppliers periodically. Absent unforeseen circumstances, a minimum four months' notice will be provided on changes to the city-gate allocation tables.

Filed pursuant to the Finding and Order dated November 4, 2009 in Case No. 07-1285-GA-EXM of The Public Utilities Commission of Ohio.

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

Choice Suppliers are required to nominate scheduled storage injections and withdrawals to the pipelines and to Company for all Company-released storage capacity. Company will post daily minimum and maximum TCO storage injection and withdrawal limits, and monthly minimum storage inventory levels. Scheduled injection nomination rights during winter months and scheduled withdrawal nomination rights during summer months are subject to approval in advance by Company.

By 1:00 p.m. CCT each day, and in any intra-day nominations thereafter, Choice Supplier shall nominate to Company via Company's EBB the quantity of gas that it has scheduled for delivery at Company's city gate(s) for its Pool(s) for the following gas day. Choice Supplier agrees to adhere to the nominating guidelines set out in the FERC approved tariff of the applicable interstate pipeline and comply with any Company operating and/or interstate pipeline restrictions communicated by Company.

Company will post actual system imbalance volumes the day after flow and each Choice Supplier's prorata share of the system imbalance per the monthly PDA. Company may at its discretion perform a No-Notice nomination to Choice Supplier's Company-released TCO storage for the prior day's flow if the Choice Supplier has not (1) delivered adequate supplies to meet their DDQ or (2) met their TCO minimum city-gate allocation delivery requirement.

Procedure for Gas Emergency Calls:

Choice Suppliers are required to adhere to Company's Gas Emergency Call Handling Procedure as it may be amended from time to time.

Allocation of Alternate Peaking Supplies:

During the months of December through March, Company shall reserve a portion of its alternate peaking supplies for Choice Supplier Pools, based on the product of each Pool's then- applicable Peak Design Day Demand and the percentage of Company's total design day needs forecasted to be met by alternate peaking supplies that month. The portion reserved shall be applied as a reduction to the Peak Design Day Demand that Choice Supplier must meet pursuant to its Comparable Firm Capacity Requirement.

On any day when the Pool's Expected Demand reaches the volume of Choice Supplier's Comparable Firm Capacity Requirement, Company shall supply the Pool's gas needs in excess of the Choice Supplier's Comparable Firm Capacity Requirements with alternate peaking supplies.

Choice Supplier will be assessed a proportionate share, as determined by Company, of the costs of alternate peaking supplies used for peak shaving for hourly load shaving and any other uses of alternative peaking supplies determined to be necessary for system operation in Company's discretion.

By October 1 of each year, and when there is a material change in Company's alternate peaking capacity, Company shall indicate the percentage of Choice Supplier Pool's Peak Design Day Demand that will be met with Company's alternate peaking supplies allocated by Company to such Pool.

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

Title and Warranty:

Choice Supplier warrants that it will, at the time and place of delivery, have good right and title to all volumes of gas delivered on its behalf, free and clear of all liens, encumbrances, and claims whatsoever, and that it will indemnify and hold Company harmless for all suits, actions, debts, accounts, damages, costs, losses, or expenses (including reasonable attorneys fees) arising from or out of the adverse claims of any or all persons relating to or arising from said gas.

ANNUAL VOLUME RECONCILIATION

1. SCO and Choice Suppliers' deliveries will be reconciled to their requirements on an annual basis.
2. For each month during the SCO Period, Company will compare each Supplier's Deliveries to the Supplier's Pool and Allocated Requirements to determine the Supplier's monthly Reconciliation Volumes.
 - a. The Supplier's Deliveries will be the sum of the Supplier's confirmed deliveries to the city-gate and its no-notice storage activity, and its allocated share of alternate peaking supplies.
 - b. The Supplier's Pool Requirements will be determined by adjusting the Supplier's Pool's actual billed usage for annual Standard Btu Value and the UAFG % identified in Company's Tariff.
 - c. The Supplier's Allocated Requirements will include the Supplier's portion of Large Transporter Imbalance volumes, Company's Line Pack changes, and Company's Operational Balancing Agreement (OBA) volume changes.
3. The reconciliation cash-out price for each month will be the IFERC Gas Market Report First-of-the-month price for Columbia Gas Transmission Corp, Appalachia plus applicable variable costs including fuel retention and pipeline variable charges.

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

CONSEQUENCES OF CHOICE SUPPLIER'S FAILURE TO PERFORM OR COMPLY

If a Choice Supplier fails to deliver gas in accordance with the requirements of the Choice Supplier Pooling Agreement, or otherwise fails to comply with the provisions of Rate 385 and these Terms and Conditions, including those specified in the Choice Supplier Code of Conduct section, Company shall have the discretion to initiate the process to suspend temporarily or terminate such Choice Supplier's further Program participation for the applicable Pool.

- **Non-Mercantile Pool:** In the event Company seeks to suspend or terminate a Choice Supplier from the provision of service to any Non-Mercantile Pool under the Program, Company shall follow the process and timeline set out in Rule 4901:1-27-12(J), OAC. Among other things, this establishes the process by which Company must seek authorization from the Commission to terminate or suspend a Choice Supplier from providing service to a Non-Mercantile Pool in the event of a default.
- **Mercantile Pool:** In the event Company intends to suspend or terminate a Choice Supplier from the Program, Company shall first notify the Choice Supplier of the alleged violations that merit suspension or termination. Such notice shall be in writing, contain reasonable detail and shall be sent to Choice Supplier at the fax number listed in the Choice Supplier Pooling Agreement five (5) days prior to the suspension or termination. If, within five (5) days after the service of the previously mentioned notice, Choice Supplier remedies or removes the cause or causes stated in the notice, the Choice Supplier Pooling Agreement and such Mercantile Pool will continue in full force and effect. If Choice Supplier does not remedy or remove the cause or causes within five (5) days, then at the option of Company, the Choice Supplier Pooling Agreement relative to all Mercantile Pools may terminate at the expiration of said five (5) day period.

If Choice Supplier is suspended or expelled from the Program relative to a specific Pool, Customers in such Pool shall transfer to Standard Choice Offer Service, unless said Customers join another Choice Supplier's Pool. Any termination or cancellation of the Choice Supplier Pooling Agreement relative to some or all of Choice Supplier's Pools and pursuant to any provision of this section shall be without waiver of any remedy, whether at law or in equity, to which the party not in default otherwise may be entitled for breach of the Agreement.

CHOICE SUPPLIER WITHDRAWAL OR TERMINATION

If Choice Supplier in total or for a specific Pool is restricted from further participation in the Program or elects to withdraw from the Program, Company shall have the right to recall all pipeline capacity then assigned to Choice Supplier by Company associated with the specific Pool(s) in accordance with the terms of the release agreement. Payment of any amounts payable to Choice Supplier by Company will be held by Company until all volumes are reconciled and any charges owed to Company are paid in full.

POOLING SERVICE TERMS AND CONDITIONS **(RESIDENTIAL AND GENERAL)**

FORCE MAJEURE

If either Choice Supplier or Company is unable to fulfill its obligations under the Choice Supplier Pooling Agreement, Rate 385, or these Terms and Conditions due to an event or circumstance which is beyond the control of such party and which prevents such performance, such party shall be excused from and will not be liable for damages related to non-performance during the continuation of such impossibility of performance. Neither of the following shall be considered a force majeure condition: 1) changes in market conditions that affect the acquisition or transportation of natural gas, or 2) failure of Choice Supplier to deliver or Pool Customers to consume scheduled gas volumes.

The party claiming force majeure will use due diligence to remove the cause of the force majeure condition and resume delivery or consumption of gas previously suspended. Gas withheld from Choice Supplier or Pool Customers during a force majeure condition will be delivered upon the end of such condition as soon as practicable based on, among other things, Company's operating constraints.

CAPACITY AND OPERATING REQUIREMENTS

Comparable Firm Capacity Requirement

SCO Supplier agrees to secure sufficient firm interstate pipeline capacity, of which a portion shall be Company released capacity, with primary delivery points to Company's city gates and firm supply to meet 100% of each month's Peak Design Day Demand of its Load Tranche, less a percentage during the winter months reflecting SCO Supplier's entitlement to Company's alternate peaking supplies as described below (Allocation of Alternate Peaking Supplies).

On a daily basis, Company will provide SCO Supplier with the revised Peak Design Day Demand for SCO Supplier's Load Tranche effective the following day. This volume will change over time as necessary to reflect Customers joining and leaving SCO Supplier's Load Tranche and any changes in Company's peak design day demand parameters.

Company may periodically verify SCO Supplier's compliance with this Comparable Firm Capacity Requirement. SCO Supplier will provide to Company upon request copies of contracts for upstream pipeline capacity not released by Company and supply contracts showing the firm quantities reserved or purchased and the specific points of delivery. If SCO Supplier is securing firm city gate supplies, SCO Supplier shall provide a copy of such firm supply agreement, and additional documentation as required by Company to confirm compliance of the applicable interstate pipeline capacity.

If Company identifies a firm capacity deficiency, such deficiency shall be resolved to Company's satisfaction by immediate acquisition by SCO Supplier of additional firm pipeline capacity. If Company identifies a firm supply deficiency, such deficiency shall be resolved to the Company's satisfaction by immediate acquisition by SCO Supplier of additional firm supply.

Mandatory Assignment of Pipeline Capacity:

Company will release its pipeline transportation and storage capacity to SCO Supplier based upon a percentage to be confirmed annually of the Peak Design Day Demand of SCO Supplier's Load Tranche. SCO Supplier may elect to have a SCO Supplier's Designee take release of SCO Supplier's allocation of pipeline transportation and storage capacity. SCO Supplier's Designee must be a signatory party to a SCO Tri-Party Capacity Release Agreement as set forth below. SCO Supplier or SCO Supplier's Designee shall take release of specific interstate pipeline firm transportation and storage capacity for the term of the SCO Service phase, subject to Company's right of capacity recall contained elsewhere in these Terms and Conditions.

Filed pursuant to the Finding and Order dated March 20, 2013 in Case No. 13-376-GA-ATA of The Public Utilities Commission of Ohio.

SCO SUPPLIER TERMS AND CONDITIONS

Terms and conditions of the capacity release will be specified in pipeline capacity release forms including length of term, price, and recall requirements, subject to FERC requirements for capacity release. SCO Supplier or SCO Supplier's Designee may not change any primary points of receipt or delivery associated with released pipeline transportation contracts during the term of the capacity release. In addition, for specific parcels of capacity identified by Company, SCO Supplier or SCO Supplier's Designee may not utilize any delivery point other than those primary and secondary points identified by Company unless the capacity is released at the pipeline's full tariff rate or unless an alternate capacity billing arrangement is agreed to by SCO Supplier and Company. The released capacity is subject to recall at any time if SCO Supplier or SCO Supplier's Designee does not perform in accordance with the SCO Supplier Agreement or fails to comply with provisions set forth in these Terms and Conditions.

SCO Supplier or SCO Supplier's Designee may re-release on a recallable basis any transportation capacity released to it hereunder, provided that: 1) SCO Supplier or SCO Supplier's Designee will continue to be responsible for payment of all pipeline charges associated with the released capacity; 2) any re-release of such capacity remains subject to the requirements and restrictions identified in Company's Tariff; and 3) the capacity is not needed to satisfy the SCO Supplier's Load Tranche's DDQ on such day(s). SCO Supplier or SCO Supplier's Designee may use other firm pipeline capacity to supply its DDQ and re-release portions of its assigned pipeline capacity, subject to the previously mentioned restrictions.

SCO Tri-Party Capacity Release Agreement:

A SCO Tri-Party Capacity Release Agreement must be executed by SCO Supplier, SCO Supplier's Designee and Company before the assignment of pipeline transportation and/or storage capacity and all other terms and conditions contained in such SCO Tri-Party Capacity Release Agreement are effective. SCO Supplier's Designee shall be subject to Company's approval. Company retains discretion to reject a proposed SCO Supplier's Designee based on a creditworthiness evaluation or other issues that take into consideration the reliability of performance of all obligations, including financial obligations. SCO Supplier's Designee must comply with all capacity release requirements and re-release limitations, either per this Tariff for Gas Service or per Company operating procedures. SCO Supplier shall remain responsible for both its and its SCO Supplier's Designee's compliance with the requirements of Company's SCO program.

Monthly Reassignment of Capacity:

Transportation and storage capacity released to Suppliers will follow Customers to their new Suppliers upon migration to and from Choice Service with monthly reassignment of capacity to Suppliers based on their Peak Design Day Demands. Company reserves the right to adjust capacity release quantities intra-month in the event large Choice migrations occur.

Operational System Balancing:

Company's TCO storage will be released to each Choice and SCO Supplier on a proportionate basis. The holders of Company-released TCO storage capacity will collectively provide system balancing through Predetermined Allocations (PDA) set with TCO.

PDAs will be established with TCO at the beginning of each month proportional to the percentage of TCO storage capacity released to Suppliers. Each day SCO Supplier will be allocated a portion of the daily system imbalance based on its PDA percentage. SCO Supplier will be charged by TCO for any overrun or penalties associated with exceeding its individual storage volume limits. If Company, as meter operator, incurs TCO penalties, such penalties will be assessed to each SCO Supplier that contributed to the penalty proportional to their contribution to the violation.

SCO SUPPLIER TERMS AND CONDITIONS

SCO Suppliers will agree to provide Company access to their daily TCO storage balances. SCO Suppliers will agree to follow Company-established minimum and maximum limits for daily storage injections and withdrawals, and minimum storage inventory requirements to ensure sufficient storage inventory and capacity to balance Company's system each day. At no time shall SCO Supplier's Company-released TCO storage inventory volume be less than the minimum specified by Company.

Welcome Letter

SCO Supplier shall provide a welcome letter to all new Customers informing them of the terms and conditions of their agreement, and providing the Customer with all applicable contact information.

Provider of Last Resort ("POLR") Service:

SCO Supplier shall temporarily provide supply from Company-released TCO storage capacity to cover system load requirements in the event of a Supplier default or OFO event.

Defaulting Suppliers will be required to reimburse affected parties for any incremental costs incurred to provide POLR service. Any incremental costs not recovered from defaulting Suppliers will be included in the ETC Rider.

Company will act as POLR Coordinator, identifying the need for POLR Service and notifying SCO and Choice Suppliers.

Company will take the following short-term action with regard to obtaining POLR supply:

- (1) Choice and SCO Suppliers collectively will provide supply to meet POLR needs, using their individual TCO storage inventories. The withdrawn storage inventory will be subsequently replaced.
- (2) If Company determines that the daily quantity of gas needed may affect the reliability of the system, an OFO will be issued, to ensure that Transportation Customers or Pool Operators are not under delivering versus their respective usages during the POLR period.
- (3) Next, as soon as possible, all transportation and storage capacity released to any defaulting Supplier will be recalled by Company who will use it to meet the immediate needs of the defaulting Supplier's customers. Company will claim the defaulting Supplier's storage inventory as needed to meet the defaulting Supplier's customer loads.
- (4) Company will fill any remaining shortfall through acquiring additional temporary capacity and supply or city-gate deliveries.
- (5) Company will coordinate the provision of POLR service for the remainder of the billing month in which a Supplier default occurs, and the subsequent month, or until an alternate solution is effectuated.

In the event of defaulting supplier removal, Company will take the following action with regard to an alternate solution:

- (1) If a Choice Supplier is removed, Company will offer non-defaulting Choice Suppliers the option of assuming the customers of the removed Choice Supplier. If there are no non-defaulting Choice Suppliers that will assume the removed Choice Supplier's customers, the customers will transfer to SCO service.

SCO SUPPLIER TERMS AND CONDITIONS

Company Demand Forecast:

Company shall forecast each Tranche's Peak Design Day Demand based upon Company's design day and forecasted weather, respectively; the number of Customers in the Tranche; and the historic usage characteristics of the applicable Customers. The forecast provided to SCO Suppliers will include the respective Peak Design Day Demand along with any requirements for Rate 310 (Residential Default Sales Service) and Rate 320 (General Default Sales Service) Customers, which will be based on equal divisions of the historical demand associated with these Customers.

Daily Scheduling of Directed Delivery Quantities:

By 8:00 a.m. Central Clock Time (CCT), Company will post on its EBB, SCO Supplier's DDQ for the gas day beginning 9:00 a.m. CCT the following day. Such DDQ shall be the sum of: 1) the Expected Demand of SCO Supplier's Load Tranches for that gas day calculated as a prorata share of total SCO Customer demand; 2) Load Tranche Unaccounted for Gas quantities based on Company's Unaccounted for Gas Percentage and 3) any necessary adjustments for interstate pipeline and/or Company operating constraints, system knowledge and experience, and/or prior imbalances associated with the periodic volume reconciliations. The DDQ will be stated in city gate MMBtus.

At the time of posting the DDQ, Company shall indicate the minimum, maximum or exact volume that shall be delivered by SCO Supplier on each interstate pipeline or to each Company city gate to achieve the DDQ, and shall post any interstate pipeline and/or Company operating constraints that are expected to be in effect the following day(s). Company shall maintain city-gate allocation tables that outline the range of minimum and maximum delivery percentages required by city-gates on Company's system. These percentages shall be recalculated and communicated to SCO Suppliers periodically. Absent unforeseen circumstances, four months' minimum notice will be provided on changes to the city-gate allocation tables.

SCO Suppliers are required to nominate scheduled storage injections and withdrawals to the pipelines and to Company for all Company-released storage capacity. Company will post daily minimum and maximum TCO storage injection and withdrawal limits, and monthly minimum storage inventory levels. Scheduled injection nomination rights during winter months and scheduled withdrawal nomination rights during summer months are subject to approval in advance by Company.

By 1:00 p.m. CCT each day, and in any intra-day nominations thereafter, SCO Supplier shall nominate to the Company via the Company's EBB the quantity of gas that it has scheduled for delivery at Company's city gates for its DDQ for the following gas day. SCO Supplier agrees to adhere to the nominating guidelines set out in the FERC approved tariff of the applicable interstate pipeline and Company's Extranet Administrative Guidelines and comply with any Company operating and/or interstate pipeline restrictions communicated by Company.

SCO SUPPLIER TERMS AND CONDITIONS

Company will post actual system imbalance volumes the day after flow and each SCO Supplier's prorata share of the system imbalance per the monthly PDA. Company may at its discretion perform a No-Notice nomination to SCO Supplier's Company-released TCO storage for the prior day's flow if the SCO Supplier has not (1) delivered adequate supplies to meet their DDQ or (2) met their TCO minimum city-gate allocation delivery requirement.

Procedure for Gas Emergency Calls:

SCO Suppliers are required to adhere to Company's Gas Emergency Call Handling Procedure as it may be amended from time to time.

Allocation of Alternate Peaking Supplies:

During the months of December through March, Company shall reserve a portion of its alternate peaking supplies capacity for SCO Suppliers, based on the product of each SCO Supplier's then-applicable Peak Design Day Demand and the percentage of Company's total design day needs forecasted to be met by alternate peaking supplies that month. The portion reserved shall be applied as a reduction to the Peak Design Day Demand that SCO Supplier must meet pursuant to its Comparable Firm Capacity Requirement.

On any day when the SCO Supplier's Expected Demand reaches the volume of SCO Supplier's Comparable Firm Capacity Requirement, Company shall supply the SCO Supplier's gas needs in excess of the SCO Supplier's Comparable Firm Capacity Requirements with alternate peaking supplies.

SCO Supplier will be assessed a proportionate share, as determined by Company, of the costs of alternate peaking supplies used for peak shaving for hourly load shaving and any other uses of alternate peaking supplies determined to be necessary for system operation in Company's discretion.

By October 1 of each year, and when there is a material change in Company's alternate peaking capacity, Company shall indicate the percentage of SCO Supplier's Peak Design Day Demand that will be met with Company's alternate peaking supplies allocated by Company to such SCO Supplier.

Measurement of Customer Usage Volumes:

Company shall be responsible for all usage measurement at the point of delivery to the Customer's facilities. Monthly Load Tranche volumes billed to Customers shall be considered actual volumes consumed, whether the meter reading is actual or estimated.

Quality of Gas Delivered by SCO Supplier:

SCO Supplier warrants that all gas delivered by or for its Tranche shall meet the quality, pressure, heating value and other quality specifications of the applicable FERC Gas Tariff of the interstate gas pipeline delivering said gas to Company.

Title and Warranty:

SCO Supplier warrants that it will, at the time and place of delivery, have good right and title to all volumes of gas delivered on its behalf, free and clear of all liens, encumbrances, and claims whatsoever, and that it will indemnify and hold Company harmless for all suits, actions, debts, accounts, damages, costs, losses, or expenses (including reasonable attorneys fees) arising from or out of the adverse claims of any or all persons relating to or arising from said gas.

Filed pursuant to the Finding and Order dated March 20, 2013 in Case No. 13-376-GA-ATA of The Public Utilities Commission of Ohio.

Company has available to certain of its customers a "Budget Billing Plan" which minimizes billing amount fluctuations over a twelve-month period. Company may exercise discretion, as permitted by Rule 4901:1-18-4(C) of the OAC, to restrict the availability of such a plan to Customers who:

If Customer's usage has been underestimated, Company shall attempt to arrange a reasonable schedule of payments if requested by Customer.

Company shall continue to furnish Gas Service to Customer and Customer shall continue to pay the amounts billed pending the determination of proper adjustment.

If a period of six (6) consecutive months elapses without Company obtaining a meter reading, Company will notify Customer by mail to make arrangements to obtain a meter reading. If a meter reading is not obtained for twelve (12) consecutive months, Company may install a remote meter reading device for which Customer will pay the Remote Meter Installation Charge contained on Sheet No. 30. Customer may pay this Charge immediately or Company shall add the Charge to Customer's next monthly Bill. Unless there is a provision to the contrary in the service contract or applicable Rate Schedule, any Customer who wishes to discontinue Gas Service because he is vacating the Premises, or for any other reason, shall notify Company at least 72 hours prior to the date of the requested service termination. Customer shall be responsible for all Gas Service supplied to the Premises until Company discontinues Gas Service. At the time Gas Service is discontinued by Company, Company shall read Customer's meter if requested by Customer or if the meter has not been read in the preceding 70 days. If a meter reading is not requested or required, Company shall estimate usage or allow Customer to provide a final meter read, subject to Company's review for reasonableness. As soon as practicable thereafter, Company shall prepare and issue a final Bill for all Gas Service supplied to the Premises. If access is required to disconnect service or to obtain an actual meter reading, Company shall inform Customer of the need to provide Company personnel with access to the meter.

C. Payment

Payment of the total amount due must be received by Company or an authorized agent by the due date shown on the Bill. If any Non-Residential Customer supplied with gas neglects or refuses to pay the total amount due on or prior to the due date, Company, after five (5) days' notice, may stop the gas from entering the Premises supplied. Company will endeavor to supply gas continuously and without interruption, and under all reasonable and normal conditions of operation, to maintain a sufficient supply or an adequate and reasonable pressure for the gas supplied. Company shall not be liable to Customer or anyone else for any damage, loss or injury or otherwise resulting from any failure to provide Gas Service, or for any interruption of the supply or for variations in the pressure of the gas when such failure, interruption or variation is due to any of the following causes: accidents and contingencies, pipeline or equipment failure, breakdowns, strikes, fires, floods, riots, cyclones, vandalism, explosion, acts of God or nature, acts or orders of the Commission, acts or orders of any civil, judicial or military authorities, or any cause beyond the control of Company.

9. EXTENSIONS OF GAS DISTRIBUTION MAINS

- A. When anyone desires Gas Service and it is necessary that Company's mains be extended to make Gas Service available to the Premises under consideration, that person shall execute an agreement satisfactory to Company covering the matter of the extension and, in addition, shall apply for Gas Service as provided in Company's General Terms and Conditions. The agreement covering the extension must be signed by the owner of the Premises to be served. Moreover, if the Applicant elects the monthly payment option in the main extension agreement, as more fully described in Paragraph C.2 herein, said agreement shall require the Applicant to inform prospective and subsequent owners at the Premises of the monthly payment option terms and conditions. The Applicant and Company must agree on meter location and point of delivery of gas before any piping is laid or installed on the Premises to be served.
- B. Company shall make an extension of one hundred (100) feet or less from an existing distribution main without charge for each permanent Customer to be initially connected to the main extension ("entitlement extension footage").
- C. When an extension of Company's main to serve an Applicant amounts to more than the entitlement extension footage per Customer, Company shall offer an Applicant who is an end-use Customer the option of making the required payment in the form of: a) a one-time deposit, or b) a monthly payment. An Applicant who is not an end-use Customer shall not be eligible for the monthly payment option. In addition, as provided in Paragraph F herein, if Company determines, in its sole judgment, that the nature of an extension is such that it puts Company at undue risk of recovery hereunder, Company may require different arrangements as a condition of such main extension. The required payment(s) shall be determined as follows:
1. The one-time deposit shall equal the estimated construction cost, net of the applicable entitlement extension footage as stated in Paragraph B herein, for each permanent Customer initially connected to the extension.
 2. Where the Applicant has elected the monthly payment option, said monthly payment shall be billed to the Applicant or subsequent Customers at the same Premises for the shorter of a period of seven (7) years or until the cost of the main extension is included in Company's rates and charges for service. The monthly payment shall equal that amount needed to compensate Company for the embedded cost of service associated with the main extension. Such cost of service shall include operation and maintenance expense including taxes, depreciation, and the return on rate base reflected in current rates on the construction cost, net of the applicable entitlement extension footage. The embedded cost of service calculations shall be consistent with ratemaking methods approved by the Commission. The monthly payment obligation shall remain with the Premises for the designated time period with the Applicant or Applicant's successor and shall be considered part of the utility bill subject to disconnection of service for non-payment.

Filed pursuant to the Finding and Order dated January 7, 2009 in Case No. 07-1080-GA-AIR of The Public Utilities Commission of Ohio.

GENERAL TERMS AND CONDITIONS **APPLICABLE TO GAS SERVICE**

9. EXTENSIONS OF GAS DISTRIBUTION MAINS (Continued)

- D. During the seven (7) years following the date of completion of the main extension, the Applicant(s) will be reimbursed for each additional Customer directly connected to the extension. There shall be no reimbursement after the seven (7) year period following the completion of the main extension. No reimbursement applies to the further extensions or lateral extensions of the main. Such reimbursement shall be determined as follows:
1. Where the Applicant has elected the one-time deposit, Company shall refund to Customer that paid the deposit a sum equivalent to the deposit on the applicable entitlement extension footage of such gas main extension. In no case shall the total refund exceed the amount deposited with Company.
 2. Where the Applicant has elected the monthly payment option, Company shall credit such monthly payment commencing when each additional Customer connects to the extension. Such credit shall be the embedded cost of service associated with the applicable entitlement extension footage, calculated consistent with the methodology in Paragraph C.2 herein. In no case shall the monthly credit for additional customers exceed the initial monthly payment as determined in Paragraph C.2 herein.
- E. An Applicant desiring an extension to a proposed real estate subdivision may be required to pay the entire cost of the extension. Each year for a period of up to but not exceeding five (5) years, which begins on the date of completion of the main extension, Company shall refund to the Applicant who paid for the extension a sum equivalent to the cost of the applicable entitlement extension footage installed for each additional Customer connected during the year, but in no case shall the total amount refunded over the five (5) year period exceed the amount paid to Company. There shall be no refunds after the end of the five (5) year period.
- F. Nothing contained herein shall be construed to prohibit Company from making extensions under different arrangements.
- G. Nothing contained herein shall be construed to prohibit Company from making, at its expense, greater extensions than herein prescribed, should its judgment so dictate.
- H. Payments made to Company in accordance with the provisions of the extension agreements shall not be subject to the payment of interest thereon while in the possession of Company.

GENERAL TERMS AND CONDITIONS **APPLICABLE TO GAS SERVICE**

9. **EXTENSIONS OF GAS DISTRIBUTION MAINS** (Continued)

- I. The title to all extensions covered by the extension agreements shall be held by and remain with Company.
- J. Company reserves the right to make additional main extensions from the end of, or from any point on its main or distribution system.
- K. Company, in preparing estimates and plans for a main or distribution system, reserves the right to determine the size of pipe, pressure of system, and size and type of all devices and appurtenances necessary in the installation of said main or distribution system. Company reserves the right to determine the length of any main extension and which of its systems of mains will be used to provide Gas Service for prospective Customers.
