What is Duct Sealing?

You may be familiar with insulation, but homeowners may not know that disconnected ducts throughout the home waste energy and money. The duct system distributes air generated by your furnace or air conditioner to the individual rooms in your house. Disconnected ducts and smaller leaks keep air from moving efficiently – making your equipment work harder to heat or cool your home. With Vectren's duct sealing rebate, a program-approved contractor will seal your duct system and ensure that the air you are paying for stays in your home – where it belongs!
