

Vectren's Conservation Connection has developed a list of known products that meet the program requirements. Many manufacturers make several models under the same series that qualify. Several of these series have been identified below to capture all the products within a group to make the list brief and easy to search. The easiest way to navigate the list is to use the find box on the Adobe viewer and type the manufacturer or brand name into the search. This will bring you to the list of qualifying products. If the product that you are interested in is not on the list or your having trouble locating your product, please feel free to call the Vectren Conservation Connection at 1-866-240-8476.

Vectren' s Conservation Connection has developed a list of known products that meet the program requirements. Many manufacturers make several models under the same series that qualify. Several of these series have been identified below to capture all the products within a group to make the list brief and easy to search. The easiest way to navigate the list is to use the find box on the Adobe viewer and type the manufacturer or brand name into the search. This will bring you to the list of qualifying products. If the product that you are interested in is not on the list or your having trouble locating your product, please feel free to call the Vectren Conservation Connection at 1-866-240-8476.

Vectren's Conservation Connection has developed a list of known products that meet the program requirements. Many manufacturers make several models under the same series that qualify. Several of these series have been identified below to capture all the products within a group to make the list brief and easy to search. The easiest way to navigate the list is to use the find box on the Adobe viewer and type the manufacturer or brand name into the search. This will bring you to the list of qualifying products. If the product that you are interested in is not on the list or your having trouble locating your product, please feel free to call the Vectren Conservation Connection at 1-866-240-8476.
